

# A simple solution to your Duty of Care

**Southern Monitoring and Northern Monitoring's**

## ArchAngel

Our flexible, legally compliant and cost effective solution Lone Worker obligations

This unique solution works in parallel with MAS which is why it is our choice for Lone Worker protection.

The beauty of this product is that it uses an existing every-day mobile phone (so no outlay for more hardware), and text messaging (which staff are already familiar with).

- Flexible - tailored to meet business and individual Lone Working risks
- Cost effective - works on all existing mobile phones
- Time efficient - logging is automatic; no need for a two-way conversation
- User friendly and easy - uses the text message facility
- Suitable for all risks - low, medium, high and very high
- Monitored by Southern/Northern Monitoring Services - for added reassurance
- Can reduce insurance premiums

# It's Simple

Just hit one button!

Speed dial 3 - Logs the start and the end of each working day

Speed dial 6 - Logs the start and the end of a temporary risk activity

Speed dial 9 - Calls for immediate assistance from **Southern Monitoring Services** - live operator 24/7; live call recording; “emergency” response
