

# Remote Security Management

## Alert from Rod Foot

This person could be in trouble and needs your help! They have triggered a Stanley Guard alert at:

15 Cofton Road, Exeter, Devon EX2, UK

## Remote Security Management **STANLEY Guard**

Wherever you go, STANLEY Guard allows you to carry a whole security team in your pocket. You will feel safer and be better protected than ever before.

An employee or student can simply activate an alert through the STANLEY Guard Personal Safety app. Once an alert is activated, the user's phone will immediately begin gathering video and audio evidence.

The monitoring centre receives the alert through the Command Center dashboard with audio/video evidence and GPS location of the user, verifies the threat and severity of the incident, and dispatches security or appropriate authorities.

### Features include:

- Pro-active alerts and location tracking
- Silent and hidden alarms
- Audio & visual deterrent

### Benefits include:

- Alerts sent to our monitoring centre who can dispatch the necessary help
- Live audio and visual feed
- Secure evidence storage

### STANLEY Guard IN ACTION

#### Night-shift worker

- STANLEY Guard app is switched on before entering into a potentially dangerous situation.
- STANLEY Guard tracking is enabled using GPS location.
- If in trouble, an alert is sent to our monitoring centre who can view current location and can dispatch help.
